INTELLECTUAL SCIENCE—Rhetoric; Elements of Criticism; Logic, Mental Philosophy and Rational Psychology; Geography and History, Composition and Declamation.

Course of Study.

This is extended through four years,—a single session of forty-two weeks, without intermission, in each year, distributed as follows:

FRESHMAN CLASS.

Cicero's Orations; Livy, (Lincoln's); Xenopon's Anabasis or Cyropædia, (Owen's); Latin Prose Composition (Arnold's;) Bullions' Latin Grammar; Greek Prose Composition, (Arnold's;) Bullions' Greek Grammar; Algebra, (Loomis';) Geometry, (Loomis';) Conic Sections, (Loomis';) History, (Weber's;) English Grammar, (Fowler's;) English Literature, (Cleveland's;) Composition and Declamation.

SOPHOMORE CLASS.

Odes of Horace, (Lincoln's;) Cicero de Officiis, or Cicero de Oratore; Herodotus, (Johnson's;) Xenophon's Memorabilia; Latin Exercises and Prosody; Greek Exercises and Prosody; Classical Literature, (Baird's Manual;) Mensuration; Spherical Geometry; Plane and Spherical Trigonometry, (Loomis';) Analytical Geometry, (Loomis';) Calculus, (Courteney's;) Mechanics; History, continued; Rhetoric, (Blair's;) Mental Philosophy, (Upham's.)

JUNIOR CLASS.

Horace, (Satires, Epistles, and Ars Poetica;) Cicero's Tusculan Disputations, or Letters to Atticus; Iliad of Homer, (Owen's;) Plato's Gorgias, (Woolsey's;) Latin Composition; Natural Philosophy, (Lardner's;) Chemistry, (Silliman's;) Meteorology, (Brocklesby's;) Natural Theology, (Paley's;) Logic, (Whateley's;) Rational Psychology, (Hickok's; Elements of Criticism, (Kames';) Rhetoric, (Whateley's.)

SENIOR CLASS.

Tacitus' Germania and Agricola; Juvenal; Plautus; Latin Composition; Demosthenes on the Crown; Greek Drama, (Woolsey's Edition;) Greek Composition; Astronomy, (Robinson's;) Geology, (Hitchcock's;) Keith on the Globes; Moral Philosophy, (Wayland's;) Political Eeonomy, (Wayland's;) Evidence of Christianity, (Alexander's;) Butler's Analogy; Revision of entire Course.

OPTIONAL STUDIES.

German, (Ollendorff's;) French, (Ollendorff's;) Botany, (Wood's;) Anatomy and Physiology.

These studies being optional, are attended to by the members of any class having the neeessary time and qualifications.

—o—

Preparatory Department.

This Department is designed to give Pupils a thorough preparation for the eollege elasses, and will be under the immediate supervision of the President and Professors in their several departments.

Care will thus be taken to inculcate the Elementary Principles of all the studies to be pursued in the College course. This department extends through two years, as follows:—

First Year.—Modern Geography, English Grammar, History of the United States, Arithmetic, Bullions' Latin Grammar, Bullions' Latin Reader, Arnold's Latin Lessons commenced and Cæsar commenced.

Second Year.—English Grammar continued, Ancient Geography, History, Book-keeping, Arithmetic, Elementary Algebra, Latin Grammar, Arnold's Latin Lessons and Cæsar continued with Written Exereises, Virgil, Sallust, Bullions' Greek Grammar, Bullions' Greek Reader, Arnold's Greek Lessons, Written Exercises in Greek with Composition and Declamation throughout the two years.

English and Scientific Course.

This Department embraces all the studies, except the Ancient Languages, which pupils sufficiently advanced, may pursue, together with the Optional Studies, and is thus designed to afford them a GOOD BUSINESS EDUCATION.

—o—

Literary Societies.

There are two Literary Societies connected with the College, the Philalaethian and Pi-Sigma-Phi, which exert a healthful and stimulating influence in the departments of Declamation and Original Composition, to which special attention is paid during the entire course of the student.

Their Halls and Libraries occupy the second stories of the two new buildings, and will be furnished, in a short time, in a beautiful, and tasteful manner.

Their meetings are held every Wednesday afternoon.

—o—

Entrance and Matriculation.

Upon exhibiting the Treasurer's receipt for the advance charges, the student will be furnished with a copy of the Laws and Regulations of the College, and will have his recitations assigned to him according to his previous advancement in study. He can enter either year of the Preparatory Department or any of the advanced College Classes by sustaining a satisfactory examination upon the studies preceding the position for which he applies, as laid down in this schedule, or their equivalent. It is of the utmost importance to be present at the *beginning* of the session. Applicants from other Institutions are required to bring credentials of honorable dismission.

After exhibiting evidence of good moral character and proper application to study during four weeks, each student over fourteen years of age will be matriculated.

Discipline and Regulations.

The government of the College is parental and free, yet firm and decided The strictest attention will be paid not only to the intellectual but also the moral education of the student. Efforts will be made to win the judgment and the heart to what is right, and to invigorate character by treating it with proper confidence; thus appealing to the honor and moral sense of the pupil, rather than immediately resorting to stringent measures.

The President, under whose immediate supervision the building is placed, with the other officers, exercises a constant guardianship over the whole establishment, so that parents at a distance have all the security they may desire for the proper government of their sons.

—o—

Examinations.

Two Examinations will be had in the year—one at the end of each half session. A faithful account will be kept of the manner of each recitation, attendance and general character of the student, circulars of which will be furnished Parents and Guardians twice a year, or oftener if necessary.

If a student be absent any length of time from the College he must sustain an examination before the Faculty upon those studies to which his class has been attending during his absence.

The final examination of the Senior Class takes place five weeks before Commencement.

—o—

Religious Exercises.

The daily exercises of the College will be opened and closed by reading the Scriptures and Prayer, at which each student is required to be present. He must also attend Public Worship on the Sabbath and a Biblical Recitation conducted by one of the Faculty.

Library and Apparatus.

An excellent Philosophical and Chemical Apparatus has been purchased by the College at a cost of $1000, for which amount we are indebted principally to the ladies of North Carolina.

Preparations are making to purchase a Library, during the next year, of books most interesting and valuable to the different departments of the College. The books will be *purchased*, and hence the Library will be select.

—o—

Expenses.

FOR SESSION OF TEN MONTHS.

Board $1 50 to $2 00 per week, for 42 weeks,	$63 00 to $84 00
Tuition for College Classes, ...	32 00
Room rent and Incidental Fee, ...	5 00 to 6 25
Washing, Fuel, Lights, &c., about	15 00
Total, ...	$115 00 to $137 25
In the Preparatory Department the Tuition being only $24, will make the total in this department,	$107 00 to $129 25

Room furniture is not included in the above estimate—that can be furnished by landlords of boarding houses at a reasonable expense. Minors, i. e., students under fourteen years of age, can be boarded and lodged with private families, such as may be recommended by the Faculty, or with relatives.

Tuition and room rent will be strictly required in advance for each five months of the scholastic year, and board may be demanded for half that period.

New students will be charged from the time they enter to the close of the term, but students previously connected with the Institution will be charged for the entire half session in which they enter, except board.

No deduction will be made except in cases of protracted illness.

Parents and Guardians are recommended to deposit funds for the use of their sons (if minors) with their Landlord, the Treasurer of the College or some one of the Faculty, who will furnish a statement of expenditures during the year.

Parents and Guardians are kindly recommended not to pay any bills contracted by their sons and wards, (if minors in the eye of the law) unless contracted by their order.

—o—

Location and Buildings.

North Carolina College is situated in the village of Mount Pleasant, lately incorporated, in Cabarrus County, North Carolina. It sprung originally out of Western Carolina Male Academy, which had been in operation for four years previous to the establishing of the College. The design of this College is to promote the interests of Education, in connection with other well established Institutions throughout the State. Though founded by the Evangelical Lutheran Church, it is under no ecclesiastical restrictions, being altogether catholic and free in its arrangements and discipline; and hence commends itself to all young men seeking a thorough and finished course of education. As its success in future will depend upon its graduates, both in moral character and intellectual training, the Faculty are determined to put forth every effort in order to meet this criterion successfully. The village, though small, has a fair prospect of rapid increase, as shown by accessions and improvements during the last year.

—o—

MONTAMŒNA FEMALE SEMINARY

Now in successful operation under Prof. G. F. Schæfer, will afford additional inducements to persons to settle here for the purpose of educating their families under their immediate eye. The hope of becoming rapidly a town of considerable size, of a character noted for intelligence, refinement and morality, is not unfounded. Mount Pleasant is twenty-five

miles from Salisbury, ten miles from Gold Hill, twelve from Albemarle, thirty from Charlotte, and nine from Concord, the nearest rail-road station. It is in one of the most fertile and healthy sections of the State. Its seclusion is altogether favorable to study, and the student is here preserved from those allurements of vice and extravaganee that too generally beset Schools in more public places. By act of the Legislature, all gambling, exhibitions of an immoral tendency, juggling, and the sale of spirituous liquors, are prohibited under a heavy penalty within three miles of the College.

The College Buildings are beautifully situated on an eminenee overlooking the village and surrounding country, and eontain ample room, by two additional Halls, for the accommodation of students.

The Board of Trustees feel that in the selection of their Faculty, they have secured the serviees of men, who, in their social intercourse, as well as in the lecture room, will give entire satisfaction.

The expenses to which a pupil is subjected in the Institution, are so low as to bring the cost of an education within the compass of the most limited means, whilst persons living in cities will find this a pleasant retreat for their sons, subjected to less expense than they would incur by keeping them at home.

Taking then, a view of the Course of Study to be pursued, (inferior to none in the State,) the government of the College, the very moderate expenses, the morality and health of the surrounding community, and the retirement of our village, we feel confident of a generous patronage.

The year will commence on the last Wednesday in September, and continue for FORTY-TWO weeks without interruption, exeept an examination in the middle of eaeh session, and a Literary Contest between the Societies on the 22d of February.

Calendar.

—o—

1860.

July 18th—Close of Session.
July 16, 17, 18—Examination.
July 18th (Evening)—Literary Address.
